Haley places 13th in his career-first Daytona 500 race

PHOTO CREDIT-WILL UJEK/WKYC

In his first appearance at the NASCAR Cup Series Daytona 500, in only his fourth cup series start, Justin Haley started from the 33rd position and drove a smart race in his Fraternal Order of Eagles No. 16 Chevrolet for Kaulig Racing, but was collected in the “big one” on lap 184. With minor damage he was able to return to the pits before a red flag would stop all action. Once the yellow was displayed, work began quickly to get the car back on track. After several stop-and-go repairs were made to stay on the lead lap, Haley returned to the action. Going into overtime restart, after moving into sixth place on lap 203, the No. 14 Ford of Clint Bowyer would get sideways into Haley causing him to come in again for damage repair. On the second overtime restart, Haley would get hit again while working the outside lane of Turns 3 and 4, cutting his left front tire but still crossing the finish line in 13th place. The day prior, in Saturday’s 300-mile NASCAR Xfinity Series, Haley wheeled through all the accidents, starting from the third position in his No. 11 Leaf Filter Chevrolet, to finish sixth. He’s currently sitting second in the Xfinity Series points after the first event of the season.

PHOTO CREDIT-WILL UJEK/WKYC

The Kaulig Racing pit crew inspects the damage after Haley is involved in the “big one.”

February is Heart Health Month

A \$49 HeartScan can help determine your risk of a heart attack

Call to make your appointment
 574-946-2193

What is a HeartScan?

A HeartScan is a quick and easy CT scan that measures the amount of calcified plaque in your coronary arteries. This scan can detect plaque within the coronary arteries well before you notice any symptoms of heart disease, giving you the opportunity to take measures to reduce your chances of a heart attack, stroke or other forms of cardiovascular disease.

What to Expect:

- Allow 30 minutes for your appointment
- You will be fully clothed
- You will be asked to hold your breath a couple of times while images are being acquired
- No injections
- Your results will be reviewed with you by the CT technologist before you leave and a report will be provided for you to take home
- A copy of the results will be sent to your primary care physician

Risk Factors for Heart Disease:

- Family History of Heart Disease
- Obesity
- High Blood Pressure
- High Cholesterol Levels
- Smoking
- Diabetes

Who should have a HeartScan?

Consult with your physician to see if a HeartScan would be beneficial for you. Based on your medical history, your physician can determine if you are at risk for heart disease.
