Little library constructed at state park

Submitted by Pam Burger

A Little Lending Library was recently constructed and placed in the family campground at the Tippecanoe River State Park. The library was suggested by Ali Klimek, in memory of her father Jerry Rausch who passed away in 2009. It was supported with matching funds from Ali and her employer, Federated Insurance Company. The library was constructed by members of the Friends of Tippecanoe River State Park and is stocked with donated books. Visitors are encouraged to "Take a Book, Leave a Book" when visiting the campground. An additional library is planned for the horseman's campground area later this fall.

FDA approves first COVID-19 vaccine

Approval signifies key achievement for public health

On Monday, Aug. 23, 2021, the FDA approved the first COVID-19 vaccine. The vaccine has been known as the Pfizer-BioNTech COVID-19 Vaccine, and will now be marketed as Comirnaty, for the prevention of COVID-19 disease in individuals 16 years of age and older. The vaccine also continues to be available under emergency use authorization (EUA), including for individuals 12 through 15 years of age and for the administration of a third dose in certain immunocompromised individuals.

"The FDA's approval of this vaccine is a milestone as we continue to battle the COVID-19 pandemic. While this and other vaccines have met the FDA's rigorous, scientific standards for emergency use authorization, as the first FDA-approved COVID-19 vaccine, the public can be very confident that this vaccine meets the high standards for safety, effectiveness, and manufacturing quality the FDA requires of an approved product," said Acting FDA

Commissioner Janet Woodcock, M.D. "While millions of people have already safely received COVID-19 vaccines, we recognize that for some, the FDA approval of a vaccine may now instill additional confidence to get vaccinated. Today's milestone puts us one step closer to altering the course of this pandemic in the U.S."

Since Dec. 11, 2020, the Pfizer-BioNTech COVID-19 Vaccine has been available under EUA in individuals 16 years of age and older, and the authorization was expanded to include those 12 through 15 years of age on May 10, 2021. EUAs can be used by the FDA during public health emergencies to provide access to medical products that may be effective in preventing, diagnosing, or treating a disease, provided that the FDA determines that the known and potential benefits of a product, when used to prevent, diagnose, or treat the disease, outweigh the known and potential risks of the product.

Leg Pain?
We can help!

Varicose Veins are a common condition usually symptomatic with leg heaviness, swelling, and pain.

If left untreated, these veins can lead to skin changes, ulceration, and infections.

The most up-to-date treatment of varicose veins is now offered at Pulaski Memorial Hospital by Dr. Randy Lehman, MD.

Dr. Lehman is hosting a Vein Screening on Monday, August 30th from 6:00 - 8:00 PM at our Specialist Clinic location in Winamac.

The initial consultation is **FREE**. To schedule an appointment, please call (574) 946-2576.

Light refreshments will be provided to go.
