Use Our Convenient Drive-Thru

Cervical cancer screening is used to find changes in the cells of the cervix that could lead to cancer. Screening includes the Pap test and, for some women, testing for human papillomavirus (HPV). You should start having Pap tests every 3 years beginning at age 21 years. At age 30 years until age 65 years, you should have co-testing – a Pap test and a test for HPV – every 5 years (preferred) or a Pap test alone every 3 years. You can stop having cervical cancer screening after age 65 years depending on your health history and results of previous cervical cancer screening tests. (*acog.org*)

PUBLIC

In Memory

Happy Birthday, Mom
Happy 8th birthday in Heaven

Wish I could see you one more time come walking through the door.
But I know that is impossible. I will hear your voice no more. I know you can feel my tears and you don't want me to cry, yet my heart is broken because I can't understand why someone so precious had to die.

Forever in our hearts,
We miss you,
your son Chuck,
granddaughter Vahona,
sister-in-law Shurla Rans
and many nieces.

.....Jl35

Thank You

It is with much appreciation that we would like to thank everyone who sent cards, posted on social media and offered words of kindness after the passing our beloved husband, father, brother and friend, Dennis Pletka. All of your support has helped us through a very difficult time.

With love and gratitude,
The family of Dennis Pletka

.....l35J36

A big "Thank you" to Dr. Gudas, who declined to be paid for the work that she did on eyeglasses supplied to me by the V.A.

I felt that was a very patriotic thing for her to do. It wasn't about the money. It just made me, a veteran, feel good.

She should be commended for it.

Layton Darnall
Winamac, IN
