This is Tyson, 10-month-old pitbull mix

Tyson is neutered and ready for his new home. Tyson loves people and has had obedience training. He needs lots of exercise and would do best in a single-dog environment.

THE MOVING WALL is the half-size replica of the Washington, DC, Vietnam Veterans memorial and has been touring the country for 30+ years. Created by John Devitt, a former helicopter door gunner and Army veteran after he visited Washington, DC, for the dedication of the Vietnam Veterans Memorial. The Moving Wall is a memorial to the 58,000 people who died in service to their country.

Thanks to all our loyal festival sponsors. Without the financial support of our generous sponsors, the Francesville Fall Festival would not be possible. We greatly appreciate their support.

CR Consumer Reports
2nd Safest Hospital in Indiana

Cervical cancer screening is used to find changes in the cells of the cervix that could lead to cancer. Screening includes the Pap test and, for some women, testing for human papillomavirus (HPV). You should start having Pap tests every 3 years beginning at age 21 years. At age 30 years until age 65 years, you should have co-testing – a Pap test and a test for HPV – every 5 years (preferred) or a Pap test alone every 3 years. You can stop having cervical cancer screening after age 65 years depending on your health history and results of previous cervical cancer screening tests. (acog.org)
